# ABHIRAM DAS

With over 15 years of experience, driving innovation and efficiency as a Cloud Infrastructure Manager, DevOps Engineer, and Site Reliability Engineer, with a focus on optimizing cloud performance, automating workflows, and ensuring system reliability.

## Profile Summary

- Hands-on experience in cloud infrastructure, DevOps, and ERP system implementation, with a track record of exceptional service delivery.
- Currently working as, a Cloud Infrastructure Manager at Kilowott, responsible for designing and managing AWS and Azure cloud solutions, focusing on performance and cost efficiency.
- Reduced cloud infrastructure costs through optimization strategies and resource allocation on AWS and Azure platforms.
- Improved system performance with scalable cloud solutions and configuration adjustments.
- Led a team to complete multiple cloud migration projects, enhancing operational efficiency and reducing downtime.
- Decreased incident response time by developing and deploying automated monitoring and alerting systems.
- Implemented cost-saving measures resulting in a significant annual reduction in cloud expenditures.

## Work Experience

### Cloud Infrastructure Manager | Kilowott | Goa | Jul'2023 – Present

#### Key Result Areas:

- Managing cloud infrastructure on AWS and Azure, optimizing performance and cost.
- Automating DevOps with CI/CD pipelines (Jenkins, GitHub Actions) and Terraform for Infrastructure as Code.
- Overseeing cloud migrations and deployments, enhancing security, scalability, and reliability.

#### Projects:

**AWS Cloud Migration & Optimization:** Developed scalable AWS infrastructure with auto-scaling, load balancing, and Terraform, cutting costs by 30% and improving performance by 25%.

**Azure Cloud Migration & Optimization:** Led Azure migrations using AKS, Azure Load Balancer, and Reserved Instances for cost savings.

### IT Infrastructure Manager | Chowgule & Company (P) Ltd. | Goa | Dec'2017 – Jun'2023

#### Key Result Areas:

- Managed IT and cloud operations, including ERP development, cloud integration, and CI/CD pipelines, optimizing workflows in education and manufacturing.
- Created custom ERP modules to align IT solutions with business processes and improve efficiency.

#### Projects:

**ERP System Integration & Customization:** Developed custom modules and resolved issues for Oracle JD Edwards ERP, enhancing performance.

**Enterprises System Design & Development:** Led ERP solutions for the education sector and implemented CI/CD pipelines for faster updates.

### Associate Techno-Functional Consultant | Kirti Technologies | New Delhi | Sep'2016 – Nov'2017

#### Key Result Areas:

- Provided ERP solutions for large-scale clients in eCommerce, manufacturing, and export sectors, specializing in application customization and troubleshooting.

#### Project:

**Techno Consultant:** Developed customized ERP applications and reports for large clients, enhancing system efficiency.

### IT Systems Associate | Jayanita Export Pvt. Ltd. | New Delhi | May'2013 – Sep'2016

#### Key Result Areas:

- Developed a C# sales forecasting dashboard and integrated Oracle JD Edwards ERP with Microsoft CRM, streamlining business operations.

#### Project:

**Full Stack Application Development:** Built a real-time sales forecasting dashboard and middleware for Oracle ERP and Microsoft CRM, enhancing data flow and decision-making
